Ali ELOUAHED

Cyber security Analyst with over 3 years of experience in IT infrastructure management. Adopting a Purple Team approach, I leverage offensive techniques to harden system defenses and optimize incident response. My expertise in Systems and Network Administration enables me to design resilient architectures capable of neutralizing modern threats while ensuring the integrity of critical environments.

Cyber Security Analyst

My Portfolio Website

SKILLS

Security & Monitoring:
Incident Response, Threat Detection, Log Analysis
Systems & Networking:
Windows Server, Linux, firewall, Network Monitoring.
Tools:
Pen-testing , information gathering , vulnerability and exploits .
Programming:
Python (automation, scripting, tool customization)

LANGUAGES

- Arabic (Native),
- French (Moderate),
- English (Fluent)

INTERESTS

Cyber security Research, Volunteering, Sports, Health & Well-being, Emerging Technologies, Gaming.

EXPERIENCE

Information Systems Security Manager / Systems Administrator

Medical & Social Center, Kolea **|May 2022-Present.**

- Implemented and supported Information Security controls to identify risks and help prevent data breaches, aligned with ISO 27001 standards.
- Deployed and managed monitoring and logging solutions for proactive incident detection
- Ensured continuous monitoring of infrastructure and rapid response to security events

Network Administrator **(Internship)**

Etterkib SPA **| Sept 2019 – March 2020**

- Managed the company's computer park and performed network supervision Using GLPI.
- Deployed and configured an Ubuntu Linux server.
- Implemented monitoring solutions using OCS Inventory and Nagios XI for real-time network and system status reporting.

EDUCATION

Associate's Degree (BTS) in Network and Computer Systems (Continuous vocational training)

- *The National Institute of Professional Training AIG «Khalil Ziyat», Blida* | Sept 2016– June 2020

Cisco Ethical Hacker Course Completion

. Cisco Networking Academy | April 2026

.understanding the mindset and strengthen Offensive/Defensive security knowledge.

TryHackMe Advent of Cyber Course Completion Certificate

- Basic Cyber security Knowledge and Experience.

June 1, 2021

TECHNICAL SKILLS

CYBERSECURITY LAB EXPERIENCE

PURPLE TEAM

- **Offensive Operations**: Conducted penetration testing simulations (Kali Linux) and Capture The Flag challenges, focusing on web exploitation, privilege escalation, and network vulnerability assessments.
- **Active Defense & Hardening**: Leveraged offensive insights to harden Windows/Linux environments, optimizing firewall configurations and implementing secure baseline architectures.
- **Threat Detection & SIEM**: Hands-on experience in log analysis and threat hunting using Splunk and Wazuh to identify Indicators of Compromise (IoC) and automate incident response.
- **Network Security**: Simulated real-world attack vectors (MitM, wireless exploits) to develop robust mitigation strategies and perimeter defense protocols.

Certificates

- **Cisco Networking Academy :**
  Ethical Hacker Course ,Exam ,CTF Completion
- **IBM :**
  Introduction to Cyber security
- **TCM Security :**
  Practical Security Fundamentals
- **TryHackMe :**
  Advent of Cyber 2020 Certificate
